

ARISE ACT 2

ELECTRONIC SITSTAND CORNER WORKSTATION

Designed in Denmark the Arise Sitstand frame sets new standards for elegant minimalist design and legendary Scandinavian engineering and reliability.

And now the Arise Sitstand desk just got even better. Arise ACT 2 features several product improvements including **Anti Collision Technology**. With ACT the powerful linear actuators feature an automatic cut-off switch when the controller senses an object (for example a chair or a window sill or cupboard or door handle).

Arise Sitstand Desk comes standard with up and down control buttons but a new optional upgrade is a controller with **preset automatic height settings**.

ARISE ACT 2
